WASHINGTON, Dec. 8. TARRY F. SINCLAIR, oil magnate, and former Secretary of the Interior Albert Dec 17 as a preliminary to their trial for conspiracy in connec tion with the Teapot Dome (Wyo.) naval oil reserve. A date for the trial will be set

after the arraignment. Inasmuch as Fall now is being tried on another oil conspiracy charge with Edward L Doheny, the date for the trial with Sinclair probably will depend on the time necessary to complete the case in progress. Special counsel for the Gov-

rnment urged the Supreme Court to refuse the review requested by Sinclair in his indictment for contempt of the Senate in refusing to answer certain questions during the Teapot Dome investigation. table that, excluding the postal service, which is nearly self-supporting, the appropriations requested in the budget for the next fis-cal year are some \$2,600,000 less than the appropriations for the present year. In comparing the foregoing figures, it is to be remembered, however, that the said mates for 1928 crease by supplemental estimates, while the appropriations for 1927 will also be increased—but to a less extent—by deficiency appropriations during the present session.

Delay in Naval Construction. The 1928 fiscal year outlay pro-vides for inauguration of five-year Navy, with a total of \$574,000,000 for National Defense.

Mr. Coolidge asked Congress to postpone construction of the remaining three of the six light cruisers that were to have been started before next July in view of this country now engaging in negotiations "to broaden our exist-ing treaties with the great Powers which deal with the elimination of competition in naval armaments."

He also omitted all provision for the construction of two rigid air-ships which Congress authorized to be built at a cost of \$8,000,000 arior to July 1, 1928. He asked that time be given to experiment with the all-metal airship now eing constructed at a cost of \$300,-

Of the \$73,477,380 proposed for aviation in the Army and Navy. \$20,600,000 is for new planes and \$20,600,000 is for new planes and \$2,400,000 for construction of barracks and quarters. The total appropriations of \$680,537,642 for the War and Navy departments makes provisions for military and naval strength of 610,000 men, including reserves. The Navy budget including \$4,000,000 carried over from last year, is \$317,815,500, or \$9,246,475 less than this year, and the War Department estimate is \$366,722,142, or \$11,251,340 more than for this year.

"This is a very considerable amount to spend for protection in time of peace," said the President. No threatening cloud at the pres ent time darkens the sky. Our 1tent and attitude to one of pears and friendly regard toward all na-tions and peoples. This however, is not sufficient warrant to nez-lect our defense and default on necessary precautions."

While proposing expenditure of the \$75,000.000 authorized by Congress for road construction. Mr. Coolidge renewed his recommenda tion that the Federal Government cut down this appropriation hereafter, confining its activities to construction only of primary or interstate highways and leaving to

BUY YOUR CHRISTMAS SHIRTS HERE THURSDAY

When the public sees the wonderful array of fine Shirts that will be spread on more than twenty tables Thursday, there will be such buying as even this store has seldom witnessed.

Every kind of Shirt you can imagine. Neckband styles, collar-attached styles, collar - to - match styles in immense variety.

Those are the facts and the facts are sufficient to sell the entire 8893 Shirts in short order.

When a sale grows to be one of the biggest in America, it's a sure sign that the merchandise is right and the price low.

This Sale Will Be Held on Main Floor, South

The greatness of this sale makes it necessary that we use more than a quarter block floor space. Table after table of fine Shirts with extra salespeople to serve you.

The history of Nugents Shirt sales reveals a string of tremendous successes, proving beyond any question of doubt that the Shirts are wonderful values. And that St. Louis men who have bought again and again are well pleased with their purchases.

The one which opens Thursday will be no exception. In fact, even greater efforts are behind it.

Handsome, finely made Shirts. You'll want a dozen or more for gifts.

BOND - BUYER TELLS STORY OF GRAFT IN ARKANSAS

Continued from Page One. tion, or a higher price than he had for them. Bribed Officials.

netimes according to his testimony, he would bribe district officials outright to sell him the bonds. At other times he would bring influences they could not re-sist to bear on the officials. Sometimes he naively said there was no

graft in the transactions.

Gould's purchases principally were for Otis & Co., a bond house in Cleveland, but his testimony made it clear that Otis and Co. knew nothing of his methods. "If they had," he testified, "they

would not have taken the bonds. Throughout the history of Arkansas bond issues of the last 10 years, there have been rumors nvestment circles of the country that Arkansas was honeycombed with graft, but they were unproved rumors. It has taken Gould's testimony to "break the story."

Gould referred to the graft money as "gum-shoe money" and testified that he had expended approximately \$50,000 in that manner, then added that the amounts he had mentioned did not constitute one-tenth of it, being only "little baby expense."

That he knew he was "near the penitentiary," Gould testified, and on one occasion when a county com-missioner entered his office with demand for \$10,000 Gould declared he was in as deep as he an ink stand at his caller, if he didn't get out.

Poinsett County, in the north-eastern part of the State, was given special attention by Gould in his testimony. A bond issue of \$1,200,000 was at stake. rovement district had been created the Legislature through the "jamming" process, and Gould tes-tified he had been promised the bonds. He even put up \$1000 earnest money, but when property owners complained the bonds had been sold too cheaply, his contract was canceled.

Compton & Co. of St. Louis then contracted to buy them, but again A Deal With the Sheriff.

"Later A. H. Landers, Sheriff of Poinsett County, called me up, Gould testified, and told me if I would come and make certain arrangements that he thought the bonds could be bought."

Gould said he talked the matter over with Tate and that "We got together with Landers on what he

Tate was to sell the bonds to Otis & Co. and get a commission of one-

When we settled up that district, there was \$11,000 profit, that in, less the \$1000 earnest money, which would leave \$10,000. A. H Landers was to get two-thirds of the profits. So Gould testified and he produced an indorsed check payable to Landers to show that Landers received \$6880.

But the financier was not through with the Poinsett County deal with the writing of that check, as developed farther along in his

"In road district No. 7 Poinsett County, that was the most outrag eous transaction we had together. That was a district over there in which we were all crooks."

Ben Rogers's Alleged Threat. "Those bonds were settled for the Southern Trust Bulding, Little Rock. I gave Roy, my son, a check to give to Bob Tate for his part. and then Bob said there was \$500 to be taken care of in getting the bonds, and I said: "What is that money for?" He said "That is a confidential matter and I don't want to tell it.' I said: 'I will not pay it unless I know what it is for." and he said: 'It goes to Ben Rogers, chairman of the Board of Commissioners of Poinsett County.' And then I said to him: 'I am too old myself to go to the pen, but I will give you the money and let you do what you want with it. About two days later I got a tele phone message from Memphis and it was from Ben Rogers. "I will tell about our conversa-

tion. I says, 'What is the trouble, Ben?' and he says, 'I want that \$5000,' and I said, 'I don't owe you anything,' and he says, 'I am coming to Little Rock and if something is not done someone will go to the

"And I went over to Little Rock and Rogers was at the Marion Hotel, and he said that he had not received the money and I told hi to write me a letter showing what was coming to him and he did." Thereupon Gould offered in evi-dence and it was made a part of

the record this letter:
"I am going to give you and
Judge 10 days to give me \$5,000 or
I will sue for the district for \$13,-

650. B. F. ROGERS."

That was that, except that Gould testified ae learned that Rogers had not received the money 'up to a certain time."

Warned Not to Sue on Note. However, Gould was not entirely through with the Poinsett County deal. There was a matter of a note for \$500 payable to W. H. Boswell. who was identified in the evidence as a commissioner of one of the county improvement districts.
Gould had the note and it also went nto evidence along with a draft for

"Mr. Tate sent me a note signed by W. H. Boswell, dated due one day after date, and he drew a draft on me. I did not know what the nete or draft was for and as usual I paid like a silly, and later on I took the matter up with Landers and I told him I had the Boswell which I had carried for a long , and I wanted it paid. I did not hear from Landers and I put this in the hands of an attorney to sue on and the attorney told me that I had better look into that be-

Chamorro, in October of last year have a coup the Solarzano regime and assumed the reins of government. Last month Chamor-ro temporarily turned over the presidency to Senator Sebastian Uriza and Congress later elected Gen. Adolfo Diaz as President and

put him in office.

The message of Foreign Minister Saenz, according recognition to the Sacasa regime, declares that Mexico, pursuant to strict standards of Justice and respect for constitutional order, withdrew its representative at Managua in order not to sanction the violence with which Chamorro "victimized the Nicarag-uan people." Since then, it adds, Mexico has been awaiting an opportune moment to resume the traditional friendly relations with legitimate representatives of the Nicaraguan people.

Lawrence Dennis, the American arge d'affaires, was instructed by State Department at Washingon to attend the inauguration of Gen. Diaz, Nov. 14.
When Gen. Diaz was inducted

and received formal announcement hat the United States recognized his Government he appealed to Washington for American interven-tion. This was followed by a warning from Secretary of State Kellogg that "interference from outside sources" in Nicaragua's political affairs was viewed with con-cern in Washington. The warning was based on official reports of repeated gun-running expeditions rom Mexican ports to Nicaragua and Guatemala.

In his appeal to Secretary Kellogg through the American legation in Managua; President Diaz said a small and weak nation like Nicaragua could not quell a revolution ided by Mexico.

ACT STRAITJACKET

Increasingly Disobeyed, Former Secretary of Commerce and Labor Tells Electrical Chiefs.

"If there ever was a political straitiacket, we have it on now," said Charles Nagel, former Secretary of Commerce and Labor, in speaking of the eighteenth amendment at the Electrical Board of Trade luncheon in Hotel Statler yesterday.

"The amendment was rushed through, without a clear uncerstanding by most persons of what was being done, and there it is. People say, amend the Volstead act. It is a waste of time to talk about that. There might be amendment as to medicinal alcohol, or a slight increase in alcoholic content, but there is no way of amending that law in keeping with the Constitution to any extent that would satisfy the protesting element. I challenge the gentlemen about amending the Volstead law to offer any amendment that would have a chance of getting through the Supreme Court.

"Others say, give it time. It has had a good deal of time. They say all that is needed is to let our youth grow up without liquor. I've been looking for that youth, and can't find him. He, much more than his elders, insists on having

Disobedience Is Increasing. "The law is increasingly less obeyed, in country as well as in city. What is going to happen? Well, for one thing, liquor may become more expensive. That will mean a shifting of wealth from those who have it now to the bootlegger class, a change that is hard-

likely to be of great benefit.
"Two classes wish the law to remain as it is-the earnest and conscientious prohibitionist and the bootlegger.
"I voted against the recent ref-

erendum (Proposition 4, for repeal of the State prohibition law). When one of the prominent backers of the movement asked me what I thought of the result of the election, I said, 'You have post-poned a rational consideration of his question by 20 years or more. You have aligned the old wet and dry forces against each other, and revived the old battle cries, which should have been forgotten.

Long Road Ahead.

"If a wet is one who wishes to

return to the intolerable conditions that prevailed before prohibition, I am not a wet. And certainly I am not a dry, if a dry is one would preserve the present distressing conditions. I believe we must come to a fair standard, which the public will support, but it is a long road, especially when one must proceed with a straitjacket on.

"In the meantime, some will ob-serve the law, and others will disregard it. It is an embarrassing matter. Shall I ask my host when and where he got his wine? I am not so impudent as that, and I indulge the presumption of inno cence, though there is every reason to doubt it."

Nagel contrasted the Eighteenth Amendment with other provisions of the Constitution, as the only instance of a constitutional provision regulating individuals. He dis-cussed the comparative attitude of Southern members of Congress to ward the Eighteenth Amendment and the Fifteenth, which gave the Negro the ballot. He also satir political drys who take a drink or many drinks. As an introduc-tion to the talk on the prohibition laws, he discussed the general theme of law in its relation to public opinion, saying that in the last analysis, laws must depend for their force upon public acceptance. "Over-Legislation" was his an-nounced theme, but he took no concrete instance other than the prohibition laws.

CABARET CURFEW ORDINANCE PASSED IN NEW YORK CITY

M. Closing Measure.

By the Associated Press.

NEW YORK, Dec. 8.—Mayor

Walker's curfew law designed to close cabarets in New York not later than 3 a. m., has been passed by the Board of Aldermen.
Of the 60 members of the alder-

manic branch of the Municipal Assembly, but two men, both Democrats, opposed the measure.

Alderman Peter J McGuinness said he voted for passage of the bill "as a memorial to the saloons of the good old days," which were not allowed to remain open after

1 e'clock. "There has been altogether too much running 'wild' to some of the night clubs," the report of the local Laws Committee said in fa-voring the bill, "the 'wild' stranger and the foolish native should have

SAND-LOT BALL PLAYER TO SING IN GRAND OPERA

NEW YORK, Dec. 8.-A man, who four years ago started singing for money to buy bats and balls for his sand-lot baseball team, who today was to have had an opportunity at the Metropolitan Opera House to show his vocal achievements, was prevented from appearing by a slight cold.

Joseph T. Macpherson of Nash-ville, Tenn., basso, was cast in the role of the King in Verdi's "Aida" for his first appearance on the boards of the Metropolitan at a special matinee. He was 26 years old last June. Three years before that he did not know he had a voice, except when he told an umpire what was what.

"A bunch of us had a baseball team and we needed some money to buy bats and balls," he said yes-terday. "We got the idea that we could put on a minstrel show and make money that way. One night when we were playing in a schoolhouse a teacher heard my voice He told me I should study. studied part time for a while and then full time. Later I sang in con-

ELEVATOR ETIQUETTE. From the Fort Worth Star Telegran A T THE recent convention of the Na-tional Association of Building Owners and Managers, a committee was selected to consider the question of whether a gentleman should carry the ancient custom of uncovering himself in the presence of ladies into the modern elevator, and, characterisically enough, the committee was selected from women members of the association. The report rendered after due deliberation came out flat-footedly for keeping hats on. The exact wording of the committee's recommendation was: "That members of the National Association of Building Owners and Managers strive to educate elevator passenoving their hats while in the presence of ladies, in order that a uniform rule of etiquette may prevail." The recommendation is direct enough, but the reason assigned seems somewhat to beg the question. . . At times there are reasons why the custom should be at least suspended tem porarily in modern elevators. In the first place, the elevator is as much a public conveyance as a street car, and he would be meticulous indeed and absurdly conspicuous who insisted on removing his hat in a street car because there were ladies under the roof. In the second place, an elevator is often crowded. The taking off of hats constitutes a nuisance and an inconvenience to others, and even to the ladies to whom it is sought to show deference. A gentleman does not discommode others unnecessarily. Lastly and leastly, the hat held in the hand s liable to be crushed. But it all seems an unnecessary bother. Even in the South, the gentleman of today mixes common sense with his observance of the traditional conventions. Rather than dig his elevator neighbor in the ribs with an elbow, the average man will forego the gesture of uncovering himself. If there is room enough, he removes his hat. Nobody is bothered

THE pestiferous Mexican Government is worse than bolshevistic. It is humorous Every time our hard-working State Department gets us all lined up to view with alarm and shiver in unison, as Secretary Kellogs points a sternly accusatory finger in the direction, presumably, of Mexico, up bobs the Greaser behind our backs, and it turns out

that Mexico isn't occupying the threatening

Recently we have been shivering dutifully at the prospect that Mexico would com-mit the terribly bolshevistic act of slapping a heavy tax on American oil companiesa tax so heavy that it would amount to confiscation of most of their profits. But just as we were getting all worked up into a lather, the Mexican Embassy issues a bland little note pointing out that Mexico hasn't the faintest idea of confiscating the property of any oil company. That leaves nothing to shiver about

Well, now, what are we going to do? Stop shivering? But that would be a reversal of Mr. Kellogg's whole method of procedure. Ever since he has been in the State Department he has been shivering so effectively and incessantly as to have earned the so-briquet of "Nervous Nellie." Surely he will not quit at this late date. Yet it must be admitted that at the mo-

ment we are out of raw material for shivering fits. What are we to do now?

From the New Orleans Times-Picayune. U NCLE SAM has been counting oil well holes, and finds that one of each five drillings for gas or oil has been a failure. That is a far better record than we had imagined and far better than was the average some years ago, when oil geology was less well understood than today. An increased percentage of results nowadays is essential because wildcatting to a depth of a few hundred feet, as was done 20 years ago, was a very different proposition from wildcatting to a mile or even farther. The . company indulging in the latter kind of test-well sinking must have tremendous re-sources behind it and therefore is able to secure the very finest geological and technical advice the world affords. Msgr. Tannrath, speaking at the WELLSBURG, W. Va., Dec. 8.

Whooping cough is the most neglected of children's diseases, and one of the most dangerous. There are 6822 deaths reported in a single year in the United States from this disease. There is no cure for whooping cough, it usually runs its course, but relief can be given and its duration shortened. A few drops of Dr. Drake's Glessoo will relieve the most violent paroxysm of coughing, and given regularly it will lessen the severity of the attacks and bring quicker recovery. Bankruptcy Referee Tells H. W. Spalding Plan Was "Ambitious" Though It Didn't Materialize.

\$2500 PAYMENT IS IN DISPUTE

Owner of Crystal Lake Site Says He Didn't Get the Money and Promoter South Africa Then "Lost Faith."

The attempted promotion of Crystal Lake Reach a swimming reort and sub-division on Clayton road, west of Denny road, on \$2000 capital was an "ambitious enter-prise," Referee Coles told Henry W. Spalding, former president of Crystal Lake Beach Inc., at a hearng in the bankruptcy of Spalding's ompany yesterday.

The Referee's remark followed stimony by Spalding that his comany contracted to purchase the 140 acres on which the amusement sort is located for \$230,000 and add improvements costing \$25,000 lthough the corporation, composed of himself and four other men, had paid-in capital of only \$2000. The transaction, closed last April, called for a \$5000 payment in May. \$25,000 to be paid July 1, and the remainder in installments over 10 rears, Spalding testified. The own r. John Oehler, received \$1000 for an option on the property severa months before the deal was closed according to Spalding.

Got Only Option Money. The \$1000 option payment was all Ochler ever received. Spalding When time for the \$5000 nstallment arrived Spalding said ne gave H. H. Hawke, a member of incorporation who was also "trustee" for Ochler, \$2500 as his. spalding's, share of the payment

"When I went to Oehler late in June to request an extension of omplained that he had only reoeived a thousand dollars," Spald-ing told the Referee. "I had my cancelled check for the \$2500, bearing Hawke's indersement as trustee for Oehler. I showed it to Oehler ut he said he had not received any of the money."

Spalding explained he was pre-pared to meet half the \$25,000 pay-ment at the expiration of the time extension, but "lost taith" when he discovered the owner had not received the previous payment. Unler cross-examination Spalding tesfied that Hawke, a real estate op erator, was the instigator of the plan to purchase and operate the report and was interested primariin selling the property.
"Posibly your \$2500 represented

Mr. Hawke's commission for ar ranging the deal," Coles suggested. Improvement Work Started.

Spalding said the corporation program, employing the Smith-Cunlift Construction Co. The, Smith-Cunliff concern did about \$20,000 worth of work and re-ceived \$7500 on their bill, according to Spalding. In the course of construction on an artificial lake. the resort's principal attraction, a dam burst, emptying 17 acres of water and leaving the "beach" high and dry. This mishap was the principal cause of the corpora-tion's financial difficulties, Spalding

After Spalding "lost faith" and the \$25 000 navment was not made. Crystal Lake Beach, Inc., was asked to vacate the property, Spalding said. Hawke suggested receivership and A. H. Kerth, a Clayton attorney, was appointed receiver. A new company organized by the Smith-Cunlift Co. and George T. Priest, an attorney, was formed as Crystal Lake, Inc., and took over the property. This company plans to operate the resort and exploit the subdivision, which is part of the tract, next year, ac cording to Spalding. Crystal Lake Beach, Inc., then went into bank ruptcy with debts of \$27,604 and assets of \$36. ..

A further reason for the failure Spalding said, was inability to rell lots in the subdivision. "If we rould have sold out the subdivision. the resort would have been a side-issue," he said. "As it was, we only sold three lots and when the dam broke we were truly out of

The hearing was continued to Dec. 16, when Hawke is expected to explain his side of the \$2500

The Standard Oil Company [Indiana] Announces That Its Research Laboratories Have Produced

The new [constant viscosity] motor oil

The Biggest Forward Step That Has Been Made in the Lubrication of the Automobile Engine

ISO = VIS means:

The engine turns over more easily on a cold morning-it is quick and eager to start.

No more trouble getting away because the car spent the night in a cold garage—the engine purrs smoothly and steadily.

No more trouble from thin oil-after hundreds of miles of motoring the car is still gliding smoothly along perfectly lubricated --

ISO = VIS marks the end of the dilution of motor oil in the crankcase.

The Standard Oil Company (Indiana) has solved the problem of dilution. Its staff of lubricating engineers has worked out a new theory of scientific lubrication. ISO = VIS is built to meet this new theory.

All the motor oils you know were made on the basis of the old theories. ISO = VIS represents the biggest forward step that has been made in the lubrication of automotive engines.

ISO = VIS costs a little more than ordinary oils, but it means the smoothest winter miles you ever have motored. Get ISO = VIS. ISO = VIS "F" for Fords-

As luck would have it, we got a good break at the start of the game. Notre Dame also played a box defense and Jake Slagle got off a good long kick over the quarter back's head that rolled and bumped along until the ball stopped on the two-yard and we had the ball about 35 yards from their goal. We soon had a practical demonstration of the defensive strength of this supposedly second team. I never saw better charging. They held for downs and we lost the ball.

Before playing a card he paused to take playing a card he paused stock of his assets and plan how best to utilize them. He saw that he might lose two spades and one heart trick, which would prevent his going game, although he would make his contract.

His only chance for game was to secure a spade or heart discard. The only way to do this was to make two diamond tricks in Dum-my. Dummy's ace was good for one diamond trick. Mr. Bachman's problem was how to get together. He had five diamonds in Dummy and one in his own hand. This left seven for the adversaries, which were apt to be divided 4-2. If so, his fifth diamond would be good. To work his plan, he would have thack in Dummy three times. get back in Dummy three times fler winning the first trick there: twice to lead diamonds, and out to cash the established "thirteener". After the first trick was taken in Dummy, there would be just three entries left—one high heart three entries left—one high heart and 7 of clubs.

SHOULD WOMEN IN MISSOURI BE ALLOWED TO SERVE ON JURIES? Bridge Pointers

Judge Florence Allen of Ohio Supreme Court Declares Women Benefit Themselves and Administration of Justice When Permitted to Serve.

C HOULD women in St. Louis and the rest of the State be permit-ted—or required—to serve on juries? That is a question likely to be decided within the next few months, but thus far few women have expressed their views on the subject. What it means to sit in judgment, sometimes with a man's life in their hands, few women realize. It is the seamy side of life

Judge Florence E. Allen of the Ohio Supreme Court discussed recently in St. Louis the question of dury service for women. She spoke under the auspices of the League of Women Voters, which will sponsor a measure to be introduced at the next session of the Legislature

to permit jury service by women.
"How anyone thinks the great questions of morality which affect men only is beyond me," Judge

"As a lawyer and Judge, I voice the sentiment of the bar and bench women has proved not only a bene. fit to women, but to the entire ad-ministration of criminal justice. One lawyer of the Court of Com-mon Pleas in Cleveland told me women jurors were not only as good as men but better, because lawyers could not bamboozle them as they could men.

When I think what happens in Cleveland, and perhaps in St. Louis, where male juries go out and play cards and throw dice, realize one reason why crimina justice is not administered in the United States as it is in England.

"With due deference to all men, women are not the emotional sex. We are more apt to cry than men -perhaps our tear ducts are larger. But the fact that there are fist fights in Corgress proves men are emotional as well as women."

Man Cried, Women Did Not. Judge Allen told of the only case her experience as a trial Judge where she sentenced a defendant "I did not enjoy it," she said, "but I did not cry." An alien was tried for a wanton payroll robbery murder. Two women and 10 men made up the jury. The tension was increased when friends of the defendant were caught in court that marriage is a job that rereceived a blackhand letter, threatening the jury and Judge with extermination in the event the defendant were sentenced to death.

Two people think they love each other. They take a running dive In spite of this, the jurors returned into mairimony, come up take a verdict of guilty, making no deep breath and go calmly on as recommendation of mercy, and before. Each continues to live as Judge Allen imposed the death before an individual existence.

if his heart would break. for criyng: I think more of him," laurels after the efforts of pourtcommented Judge Allen. "I honor ship.
